

Toonz 5.0 Bravo! Demo

Quick Installation Card For Windows 2000 and Windows XP

1. Log in as *administrator*.
 2. Unzip the file you downloaded and double-click on the **setup.exe** item. The installer opens.
 3. In the Welcome dialog click the Next button.
 4. Accept the license agreement and click the Next button.
 5. In the Choose Destination Location dialog select the folder where you want to install the software. Default destination is C:\Program Files\Toonz 5.0 Bravo; if you want to select a different one, click the Browse button and set a new destination. Click the Next button.
 6. In the Choose Destination Location for the General Folder dialog select the folder where you want to install additional files used by Toonz. Default destination is C:\Toonz 5.0 Bravo stuff; if you want to select a different one, click the Browse button and set a new destination. Click the Next button.
 7. In the Choose Destination Location for your Project dialog select the folder where you want your project database to be stored. Default folder is C:\Toonz 5.0 Bravo stuff\projctcs; if you want to select a different one, type the path for the new destination (see Toonz 5.0 Bravo! User Guide, *Managing Projects* chapter, for details). Click the Next button.
 8. Choose whether to install QuickTime to add functionality to Toonz. If QuickTime is already installed on the computer, skip the QuickTime installation. Click the Next button.
 9. The Toonz installation starts. If you chose to install QuickTime, follow online instructions to complete its installation.
 10. At the end of the installation process click the Finish button.
